

Request for Proposal: Human Resource Management System
Apex Manufacturing Limited (synthetic fixture)

1. Introduction

Apex Manufacturing invites proposals for the supply and implementation of an integrated HRMS covering core HR, payroll, time and attendance, leave, recruitment, performance, learning and compensation for approximately 8,200 employees across two legal entities in India.

2. Background

The company currently operates a homegrown HR system supplemented by spreadsheets. The components business will be demerged into a separate legal entity in the next financial year. Finance runs Oracle Hyperion for planning. Identity is managed in Microsoft Entra ID.

3. Scope of work

The bidder shall provide software licences, implementation services, data migration, integration with biometric devices and finance systems, training and post go-live support.

4. Questions to bidders

Q1. Describe your implementation methodology, phases and typical timeline for an organisation of our size.

Q2. Describe your change-management approach, including leadership alignment, communication and persona-based training.

Q3. How will your solution handle the planned demerger, including re-mapping employees, positions and approval chains to the new entity?

Q4. Confirm support for Indian statutory payroll for two entities on separate pay calendars.

Q5. Describe attendance capture from biometric devices and geo-fenced mobile check-in.

Q6. Describe your data-migration approach and how the HRMS becomes the source of truth for employee and organisation data.

Q7. List security certifications, data residency options and single sign-on support.

Q8. Provide indicative pricing for licences, implementation and change management.

5. Evaluation

Proposals will be evaluated on functional fit (40%), implementation approach (25%), commercials (25%) and references (10%).

6. Submission

Proposals are due by 9 October 2026, 17:00 IST, by email to the procurement office.
